EXPERIENCE **Hiwave Co., Ltd.**
Product Designer
Jan. 2022 – Aug. 2025

Led pattern design for floor mats and household goods sold on Taobao and Tmall, synthesizing qualitative research and trend analysis into products that achieved **average monthly sales of over 200 units**. Developed a **new pattern library** categorized by material and craft to optimize cross-functional production. Partnered with **high-end customers** to deliver tailored solutions and scale existing product collections.

Tianxiahuacang Co., Ltd.
Product Designer
Aug. 2021 – Dec. 2021

Framed **home decor** as an interactive bridge between objects and living spaces.

PROJECTS **Hydrated Cat**
UI, Illustration, Prototyping
Personal Project · iOS, Android

A gamification hydration tracking app featuring a **friendly cat companion** that makes drinking water engaging, addressing the problem that logging water feels like a chore and generic reminders get ignored. Designed **one-tap logging**, an emotionally responsive Cat companion, personalised hydration reminders and monthly progress tracking, and rebuilt onboarding around data transparency to address users' hesitation about sharing biological data.

FLUX
Concept, UI, UX, Animation, Prototyping
FigBuild 2025 Hackathon · AI Project
· Group Project · iOS, Android, Wearable

A tracking application exploring **human chronoception**, helping users understand and manage their flow states through a companion wearable device. Designed for young professionals aged 22–35, particularly knowledge workers with ADHD who lose **51% of their work time** to distraction, the system pairs a minimalist wristband with an intelligent app that translates physiological data into a real-time cognitive state signal.
